Study Island 3rd Grade Math - Real World Algebraic Thinking

Question 1.

John played a new card game in which he divided a stack of 54 cards evenly among 6 players, including himself.

How many cards did each player get?

- A. 6
- B. 9
- C. 60
- D. 48

Question 2.

Maggie is planting a flower garden. She has 10 flowers and plants 5 flowers a day. Use a table to determine how many days will it take Maggie to plant all of her flowers.

- A. 2 days
- B. 7 days
- C. 5 days
- D. 4 days

Question 3.

Kira filled four vases with flowers. She put six flowers in each vase. How many flowers did Kira put in the four vases in all?

Use the model below to help find how many flowers Kira put in the four vases in all.

\[4 \times 6 =\]

- A. 10
- B. 30
- C. 24
- D. 18
Question 4.

Ryan is finishing the fence around his house. He needs 10 pieces of wood, each 7 feet long. How much wood does Ryan need in all?

- A. 17 feet
- B. 63 feet
- C. 70 feet
- D. 80 feet

Question 5.

John has 4 bags of apples. Each bag has 4 apples in it. How many apples are in the 4 bags?

- A. 8
- B. 18
- C. 16
- D. 14

Question 6.

Two scarves cost $18. Each scarf costs the same amount. How much does each scarf cost?

- A. $9
- B. $7
- C. $8
- D. $10

Question 7.

Jerry put 12 tennis balls into 3 bags. He put the same number of balls in each bag. How many tennis balls are in each bag?

- A. 1
- B. 9
- C. 4
- D. 7
Question 8.
Ms. Morgan has 99 markers to share equally among 9 groups of students. Use the model below to determine how many markers each group will receive.

A. 11  
B. 9  
C. 6  
D. 8

Question 9.
Mary's mother bought 4 cartons of eggs. Each carton had 6 eggs.
Which of the following models shows the total number of eggs that Mary's mother bought?

A. Z  
B. Y  
C. W  
D. X

Question 10.
Directions: Type the correct answer in each box. Use numerals instead of words.
Look at the expression.

\[ 8 \times 6 \]

Fill in the blanks in the story problem to match the expression. Then, solve the expression.

Albert read 8 paragraphs that each had \[ \boxed{\text{ }} \] sentences in it. Albert read \[ \boxed{\text{ }} \] total sentences.
Answers: Math - Real World Algebraic Thinking

1. B
2. A
3. C
4. C
5. C
6. A
7. C
8. A
9. B
10. --
1. Since John divided the cards evenly among the players, he divided the 54 cards into 6 equal groups.

   Use division to find how many cards each player got.

   \[ 54 \div 6 = 9 \]

   John divided the cards into 6 groups of 9, so each player got 9 cards.

2. Use the table below to help find how many days it will take Maggie to plant all of her flowers.

<table>
<thead>
<tr>
<th>Starting</th>
<th>Day 1</th>
<th>Day 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>10</td>
<td>10 - 5 = 5</td>
<td>5 - 5 = 0</td>
</tr>
</tbody>
</table>

   Maggie will have 0 flowers left at the end of day 2, so it will take Maggie 2 days to plant all of her flowers.

3. The model shows four vases. Each vase has six flowers in it.

   Add four 6’s to find how many flowers Kira put in the four vases in all.

   \[ 6 + 6 + 6 + 6 = 24 \]
   \[ 4 \times 6 = 24 \]

   So, Kira put 24 flowers in the four vases in all.

4. To find how much wood Ryan needs in all, multiply.

   \[ \text{number of pieces} \times \text{length of each piece in feet} = \text{amount of wood in all} \]

   \[ 7 \text{ feet} \times 10 = 70 \text{ feet} \]

5. Multiply the total number of bags, 4, by the number of apples in each bag, 4.

   \[ 4 \times 4 = 16 \]

6. Two scarves cost $18. To find the cost of each scarf, divide the total cost of the scarves by the number of scarves.

   \[ \$18 \div 2 = \$9 \]

   So, each scarf costs $9.

7. Find the number of tennis balls in each bag by dividing the number of balls, 12, by the number of bags, 3.

   \[ 12 \div 3 = 4 \]

   So, there are 4 tennis balls in each bag.
8. Start by placing one block of 10 into each of nine groups.

Then share the ones equally among the same nine groups.

Therefore, each group of 9 students will receive **11** markers.

9. Mary's mother bought 4 cartons of eggs. Each carton had 6 eggs. This is the same as 4 groups of 6.

Here, 4 represents the number of groups and 6 represents the number of objects in each group.

Now, look at the given models.

Model Y shows 4 cartons of 6 eggs each, for a total of 24 eggs.

So, model Y represents the total number of eggs that Mary's mother bought.

10. The expression shows 8 times 6. This means that there are 8 groups of 6 objects. Each paragraph Albert read is a group of sentences. Albert read 8 paragraphs, so each paragraph must have 6 sentences in it to match the expression.

Next, solve the expression to find how many total sentences Albert read.

So, Albert read **48** total sentences.

Question 1.

I Love Mac and Cheese
by Diane Tran

I love to eat Macaroni and Cheese.
It's creamy and much much better than peas.
I thread a Mac on each spike of a fork,
And top it off with a nice slice of pork.

My mother yells, "Fred, please eat something new!"
I tell her, "I can't! Nothing else will do!"
Mac and Cheese is just so very yummy.
Only that alone can please my tummy.

Who is the speaker (narrator) in this poem?

A. Mac
B. Fred
C. Cheese
D. Fred's mother

Question 2.

Two Mice
by J. Robbins

Two mice were sitting down to tea;
Their names were Hop and Skip.
"My dear," Hop said, "I really think
we ought to take a trip."

"Whatever for?" said sleepy Skip,
"I do not like the sea."
He poured a cup and drank it up,
as calm as he could be.

Hop just shook her head and sighed;
she didn't want to fight,
so she just stared at Skip instead,
until he said, "All right."

Which of the lines from the story is spoken by the speaker (narrator)?

A. I do not like the sea.
B. Two mice were sitting down to tea.
C. I really think we ought to take a trip.
D. Whatever for?
"Peter, you have been reading all morning," said Dad. "You really should take a break from your book and go spend some time with your friends. It is really nice outside."

"OK, Dad. I just need to finish this chapter," replied Peter from behind his book.

Dad sighed. "OK Peter, but just five minutes."

Peter breathed a sigh of relief and went back to reading his book.

Before he knew it, he heard Mom call, "Peter, it's lunchtime. Time to put the book down and take a break from reading. Charley and Steve are outside working on the treehouse. I think Zoe is coming over to help. It might be a good idea to join them."

"I know, Mom, but this is the best part of the entire book. I am going to find out where the secret tunnel goes. I only need to go a few more pages."

"I never thought I'd see the day where I actually wanted you to put down a book and play, Peter," Mom mused. "Read while you eat, but as soon as lunch is finished, you need to go out and get some exercise."

Peter glanced up at Mom. "Sure thing, Mom."

An hour went by, and when Mom and Dad came back into the kitchen, there was Peter slowly chewing the last bite of sandwich.

Mom and Dad looked at each other. Then they looked at Peter.

"OK Peter, it is time to take a break from reading. We understand that you are very excited about your book, but it is important to get some exercise and spend time with friends," Mom said.

"Your book will be here when you are done," stated Dad. "Now go see what Charley and Steve are up to. Zoe just arrived, and it looks like they are working on a rope ladder."

"Alright," stated Peter with a grin. "You win. But as soon as it gets dark, I am coming back in to finish my book." He then walked out the door.

**Directions: Choose all the correct answers.**

Which three statements from the story reveal Peter's point of view?

- "Your book will be here when you are done."
- "You really should take a break from your book and go spend some time with your friends."
- "Peter, it's lunchtime. Time to put the book down and take a break from reading."
- "But as soon as it gets dark, I am coming back in to finish my book."
- "I know, Mom, but this is the best part of the entire book."
- "OK, Dad. I just need to finish this chapter."
Question 4.

I have a secret. A really good, juicy, have-to-tell-your-friends kind of secret, but I cannot tell anyone. My parents do not even know. I am a spy.

It sounds silly, but it is true. I am a third grade student at Whitcomb Elementary. I am an okay student. I like math and social studies a lot. I am not as good at science or reading. And I help the United States stop criminals on the weekends.

Last weekend, for example, I was playing outside with my friends. Johnny and Waleed rode their bikes to my house. Amber and Patricia walked over, and we started running around outside.

"Let's play tag, Michael!" Amber said.
"What kind of tag?" I asked. "I like freeze tag the best!"
"Yes, but you have to be it," said Johnny.
Waleed nodded. "You chose, so you are it."

Just then, I heard a beeping. It was my computer. I told them to hold the game, and I raced inside.

"You've got spy-mail!" my computer said. It was from the President. He needed my help again. Tag would have to wait.

Which line is spoken by the narrator of the story?

A. You chose, so you are it.
B. You've got spy mail!
C. Yes, but you have to be it.
D. But I cannot tell anyone.

Question 5.

Sometimes I got the feeling that Coach Brooks didn't really want me on the team. He would always start the bigger, faster, stronger, meaner kids ahead of me. Guys like Chuckie, Jim, or Marcus. I guess heart didn't matter all that much to him. Nevertheless, I still felt very proud of putting on that black and red football uniform, the very uniform I had dreamed of wearing ever since I was in third grade.

But one day all that would change. We were down 21-14 to the Jackson High Generals, with only two minutes left to go in the 4th quarter. Suddenly, Coach Brooks called my name.

"Speirs! Get out there and hit somebody!"

I put on my helmet. My time had come.

What is the narrator's name?

A. Jim
B. Chuckie
C. Speirs
D. Marcus
Question 6.

Doris's favorite song, "Sunshine Superman," played on the radio. She wanted to turn it up, but George, her father, scolded her. "I can't drive and focus when the music is too loud," he said.

George Jr., her younger brother, said, "No one wants to hear those old, fogy songs, Doris." "No one is asking you, Georgie," she said back.

George Jr. and his friend Anthony started making fun of Doris. "Doris, the Boris is bor-ing!" they chanted.

Doris calmly turned to the two of them. She emptied her giant cup of soda on each of them. They started to scream. George went to pull over to the side of the road. Doris turned up the song just in time to hear the ending. She sat dancing in her seat.

adapted from "Doris's Dilemma" by C. Safos

Who is the narrator?

- A. The narrator is not named.
- B. George
- C. Doris
- D. George Jr.

Question 7.

Keeping Pets Warm

When it gets cold outside, people wear warmer clothes. They might wear an extra sweater under their jackets. Toasty mittens or gloves will keep their fingers warm. When it gets cold, it is important to make sure pets stay warm too.

Dogs should be brought inside when the temperature drops. Dogs that have very short hair might need a doggy sweater. Doggy sweaters can often be purchased at a pet store. Another way to keep a dog comfortable is to put a few blankets in a cozy, warm place.

Cats should also be brought inside. They can be kept warm with blankets too. Cats also like to sleep in sunny spots. Open a curtain to let a little bit of warm sunlight in, and watch the cat relax in the sun.

Pets that live in cages, like mice or hamsters need to keep warm too. Be sure to give them extra cage filling. Add more newspaper shreds or woodchips to their cages than usual. They will cover themselves to keep warm.

Pets are a part of the family. Don't forget to keep them warm!

Directions: Choose all the correct answers.

Which two sentences from the piece best reveal the author's point of view?

- Doggy sweaters can often be purchased at a pet store.
- They can be kept warm with blankets too.
- Pets are a part of the family.
- They will cover themselves to keep warm.
- When it gets cold, it is important to make sure pets stay warm too.
Question 8.

Doris's favorite song, "Sunshine Superman," played on the radio. She wanted to turn it up, but George, her father, scolded her.
"I can't drive and focus when the music is too loud," he said.
George Jr., her younger brother, said, "No one wants to hear those old, fogey songs, Doris."
"No one is asking you, Georgie," she said back.
George Jr. and his friend Anthony started making fun of Doris. "Doris, the Boris is bor-ing!" they chanted.

Doris calmly turned to the two of them. She emptied her giant cup of soda on each of them. They started to scream. George went to pull over to the side of the road. Doris turned up the song just in time to hear the ending. She sat dancing in her seat.

Who said, "Doris, the Boris is bor-ing"?

A. George Jr. and Anthony
B. Anthony and George
C. George Jr. and George
D. George and Doris

Question 9.

Two Mice
by J. Robbins

Two mice were sitting down to tea;
Their names were Hop and Skip.
"My dear," Hop said, "I really think we ought to take a trip."

"Whatever for?" said sleepy Skip,
"I do not like the sea."
He poured a cup and drank it up,
as calm as he could be.

Hop just shook her head and sighed;
she didn't want to fight,
she just stared at Skip instead,
until he said, "All right."

Who is the speaker (narrator) in this poem?

A. The speaker does not have a name.
B. the sea
C. Hop
D. Skip
The lights had gone out. The storm had washed over the building, and people were waiting to hear from the news. Charles remembered he had a deck of cards.

"Does anyone want to play?" he asked.

"I don't know how to play cards," Susan replied.

"I only know how to play solitaire," said David.

"I can teach you how to play 21 if you're interested," said Heather, "But I don't really know how to play anything else."

"I have an idea," Charles said, "Why don't we use the cards and build a house?"

"You can't build a house out of cards," David replied, "Cards are made out of paper."

"I bet you I can make a two story house out of the cards," Charles responded.

"Okay, if you build a house of those cards, I will walk your dog for a week," he replied "But you can't cheat."

Susan said, "I can't wait to see this."

Charles went on to stack the cards against each other, making a roof, a base, and walls out of queens, kings, and jacks.

David saw this and knew he was in trouble.

Who said, "But you can't cheat"?

A. Heather

B. David

C. Susan

D. Charles

Explanations: Reading - Point of View

1. Look at the poem again. The narrator, or speaker, is the person who tells the story. Sometimes you have to look at what the other characters say to figure out the narrator's name. In the second stanza, the narrator says, "My mother yells, 'Fred, please eat something new!' " This line tells the reader that the narrator's name is Fred.

2. The lines of the poem with quotation marks (""") are spoken by the mice, Hop and Skip. The other lines are spoken by the narrator to you, the reader.

3. The story is written from the third person point of view. That means the story is told from the point of view of someone who knows the characters and tells what the characters say. The three statements that reveal Peter's point of view are "OK, Dad. I just need to finish this chapter," "I know, Mom, but this is the best part of the entire book," and "But as soon as it gets dark, I am coming back in to finish my book."

4. There are several characters in this story: Michael, Amber, Patricia, Waleed, and Johnny. The other lines are spoken by Waleed, Johnny, and Michael's computer. Anytime the word "I" is being used by Michael, he is speaking as the narrator to the reader.

5. The narrator is the person who tells the story. The Coach calls the narrator by his name and tells him to hit somebody.

6. The narrator is not known. He or she knows all of the character's actions and feelings but is never named.

7. The author's point of view shows what the author thinks about a topic. In this passage, the author talks about how it is important to keep pets warm during winter. Therefore, the two sentences "When it gets cold, it is important to make sure pets stay warm too" and "Pets are a part of the family" reveal the author's point of view. All other sentences are facts and hence do not reveal the author's point of view.

8. If you pay attention to the dialogue cues, it's clear that George Jr. and Anthony say this to Doris because the story states, "George Jr. and his friend Anthony started making fun of Doris. 'Doris, the Boris is bor-ing!' they chanted."

9. In poetry, sometimes the narrator or speaker of the poem (the person speaking to you in the poem) may not have a name. When this happens, the poem is told from the point of view of someone who knows all the characters and their actions. The narrator can be a part of the poem, or the narrator can just tell the poem. In this poem, the narrator is telling the story to you, the reader.

10. If you follow the dialogue cue (he said/she said/they said/I said), you'll see that right after David says, "Okay, if you build a house of those cards, I will walk your dog for a week," he says, "But you can't cheat."
Alexander Graham Bell was born in Scotland in 1847. His father, Alexander Melville Bell, was an expert on speech and how the voice worked. His mother, Eliza, had poor hearing but learned to play the piano very well.

In 1865 Bell studied how the mouth was used to make sounds and speech. In 1870, the Bells moved to Canada, then America. The next year, Alexander Graham Bell began to teach at a school for deaf people.

He experimented with many inventions. Bell came up with the ideas and his assistant, Thomas Watson, made the equipment. They invented an electric speaking telegraph, which we now call a telephone.

On March 10, 1876, Alexander Graham Bell made the first ever telephone call.
March 10, 1876

I then shouted into the mouthpiece the following sentence:

“Mr. Watson, come here — I want to see you.”

To my delight he came and declared that he had heard and understood what I said.

The Internet

In 1960s USA, a few large computers connected to each other.

If one of the computers broke down, the others would keep working. Universities began to connect computers in the same way. This grew into the Internet — lots of computers connected to each other.

The internet spread as more people were allowed to use it. Thousands and then millions of computers went online around the world. The speed at which the Internet sent information got much faster.

Early on, the Internet was mainly used for email. The World Wide Web became the main way to share media in the 1990s.

A recount tells what happened, in the order it happened. It has:
• an orientation that sets the time and place, and introduces the main people
• a sequence of events in time order
• action verbs in the past tense that tell what happened
• summing up.
Making verbs agree

1. A verb has a subject, which is the person or thing that does something.
   For example, One computer broke down. The subject is One computer, and the verb is broke down. Circle the subjects in these sentences. The verbs are underlined.
   a. The other computers kept working.
   b. Eliza Bell had poor hearing.

2. A verb can be singular (one) or plural (more than one). A verb must go with its subject. This is called making the subject-verb agreement. It means:
   • if a subject is singular, its verb must be singular.
   • if a subject is plural, its verb must be plural.
   For example, I am is singular, and We are is plural.
   Mark a box to show if the subjects and verbs are singular or plural.

   singular   plural
   a. She has a telephone.
   b. We have mobile phones.
   c. Spam is email that we don’t want.
   d. Many soldiers are waiting.

3. Sometimes it can be hard to tell if a verb is singular or plural,
   eg come can be singular (I come) or plural (we come).

   1st person singular   I walk    1st person plural   we walk
   2nd person singular   you walk   2nd person plural   you walk
   3rd person singular   he/she/it walks   3rd person plural   they walk

"Hey Ben, are you ready for the big game?" asked Coach. He ruffled Ben's hair with his hand. Coach had selected Ben to be the team's goalie for this week.

"Yep," said Ben, trying to sound like he was excited as he patted his hair back down on his head.

Inside his head a small voice teased, "Liar, liar, pants on fire. You're not ready. Go on, tell him the truth."

Ben looked up at his coach and smiled. He put on his best happy face. This wasn't easy when it felt like rats were gnawing away at his guts. He didn't want to be the goalie and he wasn't at all happy.
“Don’t pick Toby,” one of the boys whispered to Ryan. “He’s hopeless at soccer.”

A narrative tells a story. It entertains, guides or teaches. A story has a beginning, middle and end. It has:
• a problem, or the main character/s wants something
• one or more complications
• a resolution, where the problem is resolved. It can be resolved in a good or a bad way (a happy or sad ending).
A noun is a naming word. It can be a person, place, feeling or thing.

A proper noun is a particular person, place or thing, such as Ben and Bathurst Soccer Field. Proper nouns start with capital letters.

A common noun is a person, place, feeling or thing that is general, such as boy and soccer field.

Telling a Story

A dancer doesn’t need words to tell a story. Many cultures use dance to tell stories and teach young people.

Aboriginal Australians dance to celebrate events and tell stories. Their dances are about people, their way of life and the land. Some dances have been passed on for many generations.

Making African drums

African drums are made by skilled people using special hand tools.

The best African drums are hand-carved. They are made from a single piece of wood, which is then hollowed out.

Drumheads were made from the skin of animals, such as antelopes. Most modern drumheads are made from synthetic materials or from the skins of domestic animals, like goats or cows.
Hearing

The ear is the sense organ that recognizes sound. Information about sound is passed to the brain, which ‘hears’ the sound.

Sound is a form of energy that moves in waves of pressure. The outer part of the ear, the pinna, collects sound. The middle part of the ear amplifies sound, and the inner parts of the ear change sound waves into a signal sent to the brain.

The temporal lobes of the brain receive these signals. There is a temporal lobe on either side of the head, above the ear and just in front and behind the ear.

25 Write about what really happened in Miya’s village.

Plan your account

• There was a drought and the villagers ate the corn seeds.
• There was no money to buy more seeds.
• The Lord of the Bats bought white corn from another town.
• Miya stole some seed to give to the villagers.
• Miya fell over and broke two of her teeth.
• The next crop of corn was white, not yellow.

Use some or all of these facts to recount what really happened in the village.

Remember

• Give your recount a title.
• Tell the events in the order they happened.
• Take a new paragraph for each new event.
• Check your spelling and punctuation.
• Read your recount carefully when you finish.
• Make changes if it doesn’t make sense.
Visualization
Visualizing pictures in our heads of the people, places, things and events we are reading about helps build better understanding of the text. Looking for key words in the text will help us create the images in our heads.

Read the passage.

1. There was a young lady whose chin,
   Resembled the point of a pin
   So she had it made sharp,
   And purchased a harp,
   And played several tunes with her chin.

2. There was an old man with a nose,
   Who said, “If you choose to suppose
   That my nose is too long, you are certainly wrong!”
   That remarkable man with a nose.

Color the correct answer.

1. Who or what is poem 1 about? Choose the best answer.
   ○ a harp
   ○ a young lady
   ○ a young lady with a pointed chin
   ○ a lady who could play the harp

2. Why did the young lady have her chin made sharp? So that she could ...
   ○ buy a harp
   ○ play the harp
   ○ use it as a pin

3. Who or what is Poem 2 about? Choose the best answer.

Comprehension strategy focus
Visualization: Good readers visualize pictures in their heads of the people, places, things and actions they are reading about. Visualizing helps build better understanding of a text. Looking for key words will help students visualize what is in the text.

The two worksheets for this lesson reinforce comprehension skills by asking students to visualize what they are reading about.

Online objectives
Students will:
- Predict actions and outcomes
- Understand the meanings of words
- Identify audience and purpose
- Match words to their definitions
- Make inferences

State standards
CCSS.ELA-Literacy.RL.3.1
Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.

CCSS.ELA-Literacy.L.3.4
Determine or clarify the meaning of unknown and multiple-meaning word and phrases based on grade 3 reading and content, choosing flexibly from a range of strategies.

Online lesson sequence:
- Visualization Video: how to visualize pictures of the people, places, things and action in a text.
- Cover Story: predicts what the book will be about.
- Dictionary: understands the meaning of these focus words: resemble (verb), purchase (verb), suppose (verb), remarkable (adjective), placid (adjective), relinquish (verb).
- Audience and Purpose: identifies the target audience and purpose of the text.
- Key Words: matches words to their definitions.
- Making Inferences: makes judgments based on clues in the text.
- Read the Extract: Limericks (pp. 1-2).
- Comprehension Quiz
- Map book Artrageous, Chapter 5: Artrageous! is unlocked.

Online assessment
- Students complete a 16 question comprehension quiz. The quiz tests literal, inferential, vocabulary and usage, text analysis and critical literacy comprehension skills.
  Example questions are:
  - What is another way of saying if you choose to suppose? There is more than one correct answer.
  - Who does the word you refer to in this limerick?
  - Why did the old man very soon go back to Dover? Choose the best answer.

Additional writing response
Use these texts to help you write your own limerick about an old man or woman.

Limericks, pages 1-2
Level 23, Lexile 710L
A collection of structured, humorous poems by Edward Lear.

What is a Limerick?
Limerick poems originated over two hundred years ago and were named after the town in Ireland of the same name. Limericks are short and funny. Town beggars and working class people would sing and recite them at social gatherings. The English poet Edward Lear made the Limerick poetic form very popular; his limericks are often very funny and have an appealing rhythm.

Limericks are five lines long. They have an AABBA rhyming scheme. The rhyming scheme describes the pattern of end rhymes in a poem. The rhyming words at the end of each line of a poem are called “end rhymes”.

For example:
There was an old man with a beard
Who said, “It’s just as I feared”*
